

Business Opportunities

The BookingCenter Local Distribution System[®] (LDS) creates business models around local travel networks. Similar to the Global Distribution Systems (GDS), the Local Distribution System (LDS) works on a regional and/or interest-focused basis that taps into an unlimited number of Suppliers, Agents and Resellers who do business within the LDS.

BookingCenter provides management tools to capitalize on relationships with Resellers, Agents, Travel Suppliers, and existing networks. Today's travel marketplace is increasingly reliant on the Internet and e-business. Those who manage this distribution channel maximize their return from the network.

BookingCenter Partners:

- Create local travel networks that reward and inspire participation.
- Incentivize Agents and Resellers to promote the network.
- Develop deep and profitable relationships within the network.
- Earn ongoing revenue through relationships - locally and globally.
- Invest in a proven, sustainable business model.
